

Disaster Response + Essential Services for COVID-19 Response

Jensen Hughes services for Hospitality Conversion for Alternate Care Sites

As the impacts and implications of coronavirus (COVID-19) unfold, it is becoming increasingly important to be as proactive as possible. We are available to assist the U.S. Army Corps of Engineers (USACE), the Department of Health and Human Services (DHHS) and Federal Emergency Management Agency (FEMA) in their efforts to convert buildings into Alternate Care Sites (ACS).

Our global team, which includes the largest number of registered fire protection engineers, is ready to support you where you need us.

ALTERNATE CARE SITES (ACS) SERVICES

Our team can support the conversion of existing facilities into Alternate Care Sites across a diverse set of occupancies including:

- + Hotels
- + Assembly: Convention Centers, Arenas
- + Higher-Ed: Residence Halls, Athletic Facilities
- + Healthcare: Shuttered Hospitals and Nursing Homes, Existing Hospitals and Nursing Homes

Services for Alternate Care Site Assessment, Implementation and Maintenance to USACE / FEMA Specifications include:

Fire Protection + Life Safety

- + Fire Protection Consulting for Facility Conversion to NFPA 99 Category 3 Standards
- + Hazardous Materials Separation and Storage Consulting
- + Code Consulting
- + Fire Hazard Analysis

Electrical Engineering

- + Primary and Backup Power Assessment
 - Existing power panel per floor/room review
 - Capability for routing and connection of emergency power
 - Sizing and hazard-resistant placement of backup power generators and transformers
- + Communication/Wi-Fi Capacity Assessment and Design Support

Mechanical Engineering

- + Patient In-Room Negative Pressure Differential Capability Assessment
 - Existing HVAC review (AHU, PTAC)
 - Existing duct static pressure capacity
 - Validate clean zones remain free from patient return air
- + Water and Sanitary Capacity Assessment
 - Connection review
 - Water heater capacity review

Structural Engineering

- + New Equipment Load Assessment
 - Rooftop AHU anchorage and load path review against existing roof capacity
 - Concentrated load review against floor capacity for patient floors
 - Anchorage of free-standing medical pods
- + Facility Robustness for Probable Natural Hazards
- + Flooding, Earthquake, Tornado, and Hurricane
- + Integrated Rapid Visual Assessment for Patient Facility Vulnerability

Client Highlights

GLOBAL HYATT HOTELS

Since 1981, we've served Global Hyatt Hotels, providing corporate fire engineering, life safety, property risk control, and security consulting services for its global hotel and resort properties.

HILTON HOTELS + RESORTS

We've supported Hilton for over 30 years, providing safety and security related services for hundreds of projects. From code consulting services, to due diligence surveys, to full fire alarm system replacements, our services have supported nearly 150 properties throughout the past five (5) years.

MARRIOTT INTERNATIONAL

Over the last 13 years, we have provided life safety reviews, plan and design reviews, construction management, system pre-testing, system commissioning and fire/life safety audits.

Marriott, Hyatt + IHG New Builds / Conversions

3,000+ Properties
1,200+ Openings
700+ PIPs

Annual Fire + Life Safety Audits

308 SPG Audits
100+ Hyatt Risk Audits
309 Marriott China Audits

TRUSTED RELATIONSHIPS WITH AHJS

All facility designs are subject to compliance approval by the local Authority Having Jurisdiction (AHJ). Our engineers and consultants can leverage our existing relationships with AHJs to expedite the permitting and design process for USACE and FEMA teams. We will review your work during the design phases to verify code compliance is achieved as we work together to fight this pandemic.
